

IN A BOX RECORDS

PRESS RELEASE

Release Date: 08/08/19

BOX.2 is the latest sub-label brand to be launched by In A Box Records. With an ambition to discover and project the darker side of dance music, the new digital imprint has spent the past 12 months theorising, strategising and searching for the most innovative underground artists and producers they could find. It seems fitting that a Brighton based label should select a Brighton based producer to set the tone for it's debut and no talent quite encapsulates the future vision for BOX.2 better than L ZEN. Mysterious and elusive, L ZEN is yet to drop an original work, making this a double debut. Angels & Demons is the track title and you're bound to be impressed.

A slow burner, this tension building tech house roller starts with a groove, developing from deep, dark percussion and a thumping kick, into a rising snare build. Typical of club tracks like it, the intensity grows slowly, dropping into a weighty main section. Dominated by the rhythm and set alight by the introduction of a dirty lead synth. Interest is maintained with an alternative second drop, preceded by a hotly developed, techno inspired mid-section.

L ZEN is a new name on the underground house and techno scene. Inspired by the rising popularity of dance music throughout the past decade, Brighton based producer/DJ L ZEN has long been developing his sound under previous aliases. Characterful and dark with crisp production and bouncy rhythms set to capture dance floors across Europe and the World.
